

CARING CONNECTIONS PROGRAM

***Are you having
a transplant?***

**Talk to someone who has
been in your shoes.**

**BMT InfoNet's one-on-one
Caring Connections program will
match you with a volunteer who can
help answer questions and provide
emotional support.**

Our Trained Caring Connections Volunteers:

- are survivors and family members who have been through transplant.
- can provide helpful suggestions on how to navigate the journey before, during and after transplant.

Whether it's talking to someone who had the same diagnosis, same type of transplant or is the same age, we have a volunteer who's eager to help.

**Request a Caring Connection online at
bmtinfonet.org/caring-connection
or call 888-597-7674**
